***Allowable Subject Matter***

1. Claims 1-5, 7-18, 20-35 are allowable over the prior art of records.
2. The following is an Examiner's statement of reasons for the indication of allowable subject matter: Claims 1-2, 15, 30, 32-35 are allowable over the prior art of record because the prior arts, cited in its entirety, or in combination, do not teach wherein determining the location and non-uniformly allocating memory address ranges are performed by a partition manager in the logically-partitioned computer (claims 32, 34); wherein allocating memory address ranges to the plurality of IO endpoints includes allocating differently sized memory address ranges to first and second IO endpoints having the same connector type (claims 1, 2, 15, 30); wherein non-uniformly allocating memory address ranges to the plurality of IO endpoints includes allocating memory address ranges to a plurality of IO slots coupled to the PCI-compatible host bridge from the memory address range allocated to the PCI-compatible host bridge (claims 33, 35).

The remaining claims, not specifically mentioned, are allowed for the same rationale as set for their dependent claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferable **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
